Playmobil imagination prompt cards - print & cut edition

How to print your cards

1. Print this document at 100% scale (choose "Actual size", not "Fit to page").
2. For cards with printed backs, print double-sided and set your printer to "flip on long edge". Prefer to keep it simple? Print single-sided - the even-numbered sheets contain all 25 card fronts.
3. Thicker paper or card (160-250gsm) works best, but plain paper is fine too.
4. Cut along the dashed lines - and let the adventures begin!

Tip: there's no right answer and no fixed ending. Pick a card, start the adventure, then let them lead. What do you think happens next?
